Summary

Passionate and dedicated programmer. I love solving puzzles and building solutions to problems I face in real life using my coding skills.

I have online freelance experience developing apps(Android), and websites(mostly on Django and Flask), and doing SEO for my clients.

I also have extensive experience making my own apps, games and web apps, doing the market research, promoting them, and optimising them for ad revenue.

I have completed courses in Android Development, Blockchain, Artificial Intelligence, Data Science, and Economics.

My specialties are :

Web Development (Django, Flask, HTML-CSS, node.js, react.js)

Mobile Development (Android Studio, React Native)

AI and Machine Learning(TensorFlow)

Blockchain and Cryptocurrencies

General Programming (Java, Python, C++, C)

Robotics and IoT (Arduino , Raspberry Pi)
